

Ramping Up Life Program

The Center for Independent Living of North Central PA, along with Roads To Freedom, advocate for participants to remain in their home and live life to their fullest potential in the community, avoiding institutional living. In order to do

that, some participants need immediate assistance with accessible living conditions that cannot wait for weeks or sometimes months for other funding sources to be approved. In these situations, participants may apply for funds through the Ramping Up Life Program to have immediate accessibility to their home by means of having a ramp installed or other needed accessibility equipment such as a stair glide.

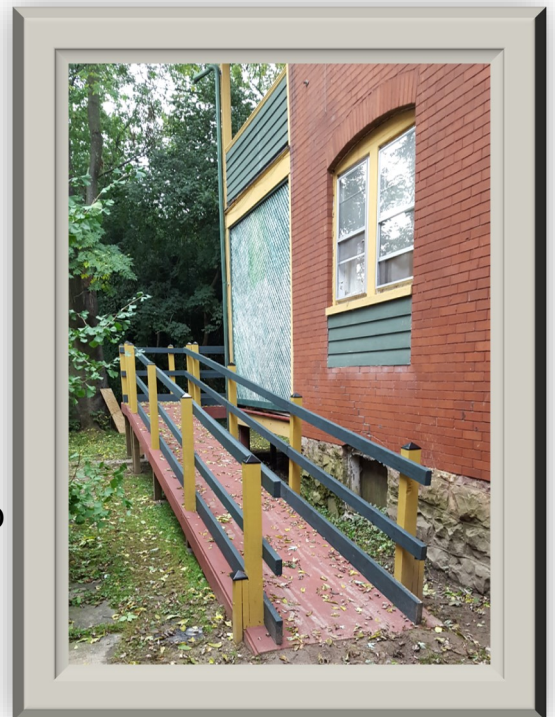

Through the Ramping Up Life Program, we have helped many people achieve their independence quicker and faster than federally funded programming. It is by generous donations from our partners that make the difference in our participants futures.

Our biggest fundraiser of the year is our annual Wheelchair Basketball Tournament. The monies raised at this event go

directly to the Ramping Up Life Program. So far, a total of 13 pieces of accessibility equipment, totaling over \$17,000, have been purchased and installed with the Ramping Up Life funds! The immediate access to a participants home is the greatest satisfaction we can receive.

Thank you to everyone who has given the gift of giving someone access to their home and their life again!
